

When caring for a dog with osteoarthritis (OA) pain,
dog owners budget for **more than cost**

While cost is a consideration, other factors
contribute to the burden of care, like:

The physical demands of care, such as administering medications or managing the mobility limitations of their dog

The emotional impact of treatment successes or failures

The time needed to care for the medical needs of a dog in pain

The cost of care and its impact over time

A once-monthly injection of Librela may help ease the burden on dog owners as they manage their dogs' OA pain.

Dog owners are comfortable spending around \$100 a month to treat their dog's OA pain¹

Librela monthly pricing structure

The recommended dose of Librela is 0.23 mg/lb (0.5 mg/kg) body weight, once a month

Weight	Librela Strength					List Price (Cost to veterinarian)	MSRP* (Suggested cost to owner)	
	5 mg/mL	10 mg/mL	15 mg/mL	20 mg/mL	30 mg/mL			
11-22.1 lb (5-10 kg)	1 Vial					\$29	\$95	
22.2-44.1 lb (10.1-20 kg)		1 Vial				\$36	\$95	
44.2-66.1 lb (20.1-30 kg)			1 Vial			\$42	\$95	
66.2-88.2 lb (30.1-40 kg)				1 Vial		\$49	\$95	
88.3-132.3 lb (40.1-60 kg)					1 Vial	\$55	\$95	
132.4-176.4 lb (60.1-80 kg)				2 Vials		\$98	\$150	
176.5-220.5 lb (80.1-100 kg)				1 Vial	+	1 Vial	\$104	\$150
220.6-264.6 lb (100.1-120 kg)						2 Vials	\$110	\$150

• **For dogs <11 lb (<5 kg):** Aseptically withdraw 0.045 mL/lb (0.1 mL/kg) from a 5 mg/mL vial into a single syringe and administer immediately. Discard the vial after the dose has been withdrawn

• **For dogs ≥11 lb (≥5 kg):** Dogs should be dosed by weight range according to the Dosing Chart above. Dogs are given the full content of 1 or 2 vials of the appropriate concentration based on body weight. Aseptically withdraw the total dose into a single syringe and administer immediately

Suggested retail price is confidential and for Zoetis customers only. Prices as of January 2024.

Librela can provide value to both dog owners and your practice month after month

*Zoetis representatives are not free to discuss resale prices with you. Only you can determine resale prices.

IMPORTANT SAFETY INFORMATION: For use in dogs only. Women who are pregnant, trying to conceive or breastfeeding should take extreme care to avoid self-injection. Hypersensitivity reactions, including anaphylaxis, could potentially occur with self-injection. LIBRELA should not be used in breeding, pregnant or lactating dogs. LIBRELA should not be administered to dogs with known hypersensitivity to bedinvetmab. The most common adverse events reported in a clinical study were urinary tract infections, bacterial skin infections and dermatitis. See full [Prescribing Information](#).
